01 PRIMARY LOGO

Her original stacked lettering, cleaned up into vector and set in the brand colours: orange fill, white keyline, Knicks-blue dimensional shadow. On coloured backgrounds the colour shows through every gap, with the white keyline still around each letter. On orange, the lettering turns Knicks blue with a yellow shadow. Never redrawn or re-typeset.

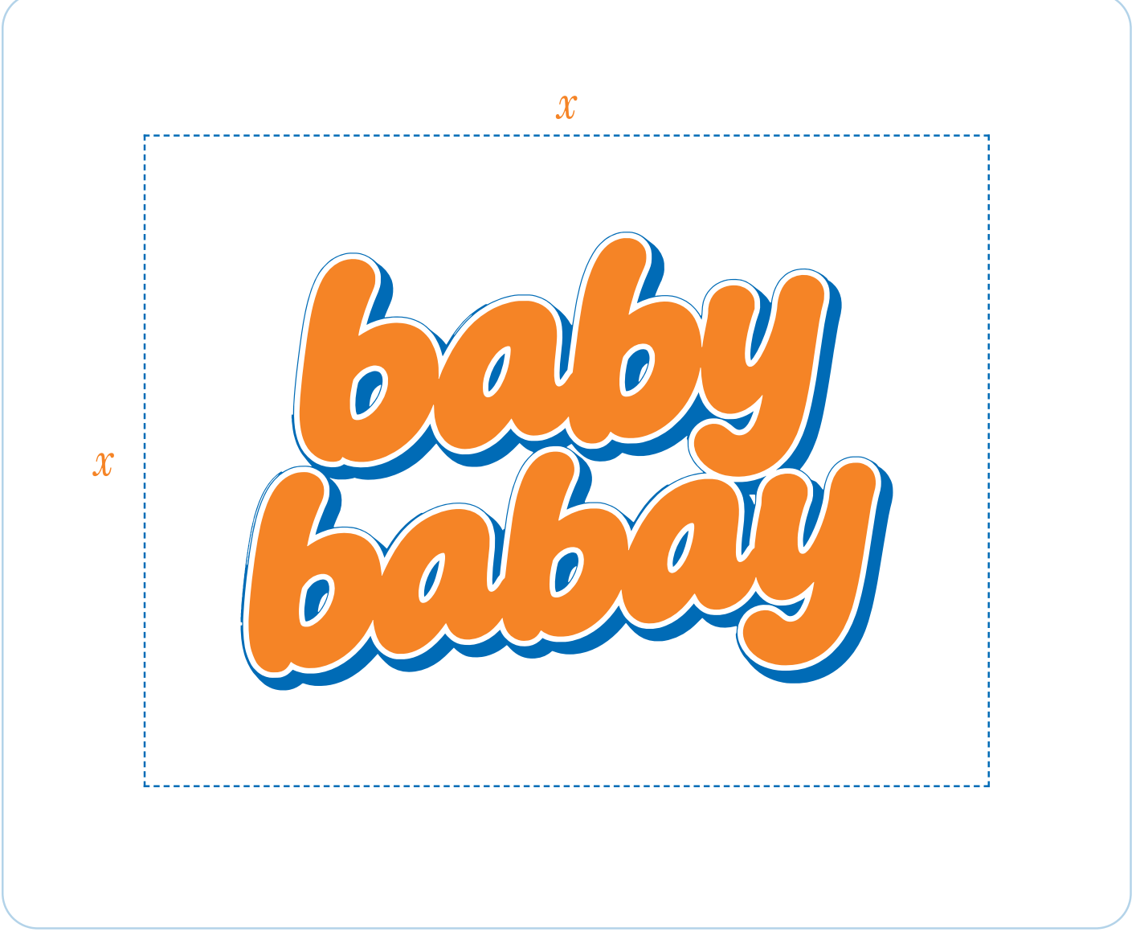
USING THE LOGO



Give it room.
Keep clear space on every side at least the height of the b (x). Nothing else enters that box.

Pick the right background.
Approved backgrounds are white, Knicks blue and Pantone yellow. On a coloured background the colour shows through the gaps; the white keyline stays around every letter.

Protect the mark.
Never remove the white keyline or the blue dimensional shadow. Don't stretch, recolour, rotate or re-typeset.

Use the files.
Always place the supplied SVG or PNG. Never retype the logo in a font.
