USING THE LOGO

Give it room.
Keep clear space on every side at least the height of the b (x). Nothing else enters that box.

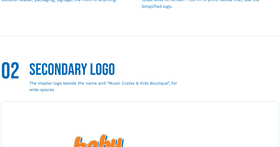

Pick the right background.
Approved backgrounds are white, Knicks blue and Pantone yellow. On a coloured background the colour shows through the gaps, the white keyline stays around every letter.

Protect the mark.
Never remove the white keyline or the blue dimensional shadow. Don't stretch, recolour, rotate or re-typeset.

Use the files.
Always place the supplied SVG or PNG. Never retype the logo in a font.
